1. Basic Information of Products

Items	Details	Remark
Name	4G Site enforcement Recorder	
Model	SOP-05M	
Target Customer	The relevant law enforcement departments of the government	
Application	Real-time video transmission, the team unified scheduling, remote	
	support and other allegations of integrated functions can be	
	achieved, by wearing a law enforcement recorder to send back the	
	information to the platform	

2. Product Specifications

No.	Items		Details		
		IP Level	the IP67 protection level in GB4208-2008		
01	Reliability	Applicable Environment	Temperature -30°C ~50°C, Humidity<90%		
		Anti-drop height	2M		
		Size	100mm×60mm×24.4mm (External device not included)		
02	Structure	Weight	167g (Only device body)		
02	Structure	Keystroke	7 buttons on both side of the machine, include camera key,		
		Reystroke	Video key, record key and other keys		
			2.0 inches TFT LCD.		
		Display Screen	Full field white test, the maximum brightness is 600cd/m2.		
	Display	Display Screen	The brightness ratio of the whole white field test and the		
03	Performance		whole black field test is 428:1		
	Periormance	Touch Window	Capacitive touch screen.		
			Waterproof and the new operation model with glove		
		Field of View	Horizontal field of view angle >120°		
		Video Input	Camera Resolution of built-in camera is 1920*1080;		
		video iriput	Camera resolution of external camera resolution is 1920*1080		
		Video Transmission	480P under 4G network, >25 frames		
	Video Image		Color video image,		
04	_	Video Record	Video resolution is 1920×1080, 1280×720 can be selected,		
	raidilleteis		The video frame rate is 30/s		
		Video Format	MP4		
		Photo Format	Maximum pixel value≥16 6 million, Actual effective pixels is		
		Filoto Format	4608*3456, JPG as a file format		
		Sensor Type	CMOS		
		Shutter	Electronic shutter		
05	Camera		Infrared night vision lights can be switched by filter		
05	Aspect	Infrared Night Vision	High power infrared lamp, Aluminum substrate for heat		
			dissipation		
		White Balance	Automation		

		Flashlight	Support	
		Laser Light	Support	
		Light detection	A built-in chip used to detect light	
06	location abili	Satellite Positioning	Domestic function combine GPS and Beidou Positioning	
	ties	Satellite Positioning	Overseas support Galileo and GLONASS system	
			TDD LTE: Band38 (2570-2620M)	
			Band39 (1880-1920M))	
			Band40 (2300-2400M)	
			Band41 (2496-2690M)	
			FDD LTE: Band1 (UL:1920-1980M,DL:2110-2170M)	
		3G/4G Real-time	Band3 (UL:1710-1785M,DL:1805-1880M)	
07	Wireless	Transmission	WCDMA: Band1 (UL:1920-1980M,DL:2110-2170M)	
07	Transmission		Band2(UL:1850-1910M,DL:1930-1990M)	
			Band5(UL:824-849M,DL:869-894M)	
			TDSCDMA: Band34 (2010-2025M)	
			Band39(1880-1920M)	
			EVDO: BC0 (UL:824.025-848.985 M DL:869.025-893.985 M)	
		WIFI	WIFI, Support 802.11b/g/n	
		ВТ	BT 4.0	
08		Compass	Built in magnetic chip to achieve compass function	
09	D	ata Interface	Mini USB 2.0	
10	Cl	narging Mode	Node Special adapter, Charging with USB or Vehicle, DC 5V,1000mA	
11		Pattoni	Battery can be replaced	
11	1 Battery		4.35V high voltage electric core, 3050mAh	
			Built-in TF memory card space is 32G, the recording time is not	
12		Storage	less than 8 hours, and at the same time the storage is not less	
12		Storage	than 8 million 3000 pixel pictures,	
			RAM 1GB, TF card up to 128GB	
13	Operating System Andriod 5.1			

3. Product Functionality

No.	Items	Details	
01	Dhotographing Eunction	Press single button capture photograph in the process of video does not	
01	Photographing Function	affect the normal video	
02	Wireless Transmission	The device has the function of transmitting the video under the whole	
02 Function		network 4G wireless communication mode	
03	WIFI Function	The device supports WIFI transfer function	
	Domestic function combine GPS and Beidou Positioning, the device		
04	Global Positioning	receive satellite data and upload the position information to the	
04	System	command center in real time through the built-in communication module	
		Overseas support Galileo and GLONASS system	
05	Projection Screen	The device screen content can be projected onto a device that supports	

Product Specifications

	Function	WLAN projection (Smart TV or smart boxes, etc.)	
	Infrared Night Vision	The outline of the human body can be seen in effective distance 10M	
06	Function	The characters in the picture of the facial features can be recognized in	
		the effective shooting distance 3M	
07	Browsing, retrieving and	The video and audio, photo and other information saved in the device can	
	playing back	be browsed, retrieved and replayed according to the time	
08	Character	Information can be automatic overlay in the recorded video and the	
	Superimposing Function	pictures, for example time, date, user number, GPS location information	
		The device can display battery charge, charge status, system time, storage	
09	Display Function	margin and other information. Boot, sound recording, video state has	
03	Display Fairetion	light indicator, the boot state indicator is green, recording status indicator	
		is shown in red, yellow lights are recording.	
		When the device connected to the host computer, the time can be	
10	Time Correction Function	automatically corrected with the time server through the management	
		software. The device can't modify the time	
		The device has the alarm function of battery under pressure, storage	
11	Abnormal Alarm	overflow. After the battery voltage alarm, the remaining battery capacity	
11	Function	can ensure the normal recording machine not less than 5min, but not	
		more than 30min	
		The device can store the data and protect stored data, stored data is not	
12	Data Integrity	removed or covered by this machine or unauthorized host computer. The	
12	Data integrity	device in the abnormal problems can be restarted, the stored data will	
		not be lost or damaged after the restart.	
		The device can record the running status and operation information, just	
13	Log Recording Function	like the on / off time, video time, recording time and photographic	
13	Log Necolaling Falletion	operation information. Log reading and cleaning can only be done	
		through the host computer system management software.	
		A. Hierarchical management and authorization authentication.	
		B. You can set the basic parameters, such as the system time, password,	
		and the grading system.	
		C. You can upload, cancel and query the stored files in the device.	
		D. This device can store and retrieve information according to the number	
	Special Management	and time of the information.	
14	Software	E. The video resolution and frame rate can be set	
	Software	F. The users and user department can be set	
		G. This device has the function of automatic data import. When the	
		product is connected with the authorized host computer through the	
		communication interface, the internal video and audio information, audio	
		information, photo and log data, user information, file type, upload time	
		can be automatically uploaded.	
1.5	Color Daduation	The picture color is similar with the body color when display or playback	
15	Color Reduction	the video. The device has the function of automatic infrared filter	
17	Information Haland	All the information can be upload, just like the recorded video audio,	
	Information Upload	audio, photos, internal time and memory capacity information, user	

Product Specifications

		information and use of personal information
		A. The information used to calibrate the local calendar clock should be
		download or received, like "year, month, day, hour, minute and second"
18	Information Download /	B. Some information for Setting up the working mode of the device, such
10	Receive	as reading the record data, deleting the control instruction of the
		recorded data and so on
		C. Video and photo resolution, user information
		The device can be connected to the intercom and provide pickups and
19	Intercom Device	speakers for intercom.
		This device can be compatible with digital and analog intercom.
20	External Camera	OV8865

4. BOM List

No.	Parts	Qty	Remark
1	4G Site enforcement Recorder	1	
2	5V 2A Adaptor	1	
3	5V 1A Charging Device	1	Optional
4	3050mAh Battery	1	
5	USB Cable	1	
6	CD(Driver\ Collection client)	1	Optional
7	Clip	1	
8	User Manual	1	
9	Warranty Card	1	
10	Certificate of Qualification	1	
11	External Camera	1	Optional

Packing box

Product packaging details

Standard Accessories:

- 1.Camera x 1
- 2.USB Charger x 1
- 3.Shoulder Mount x 1
- 4.Manual x 1
- 5.USB cable x 1
- 6.Battery x 1

Optional:

- 1.Charging Base x 1
- 2.External Mini Camera x 1

PC Driver Interface

Server
